

USC Additional Course Recommendations 2014-2015

In addition to Core requirements, the curricula of many undergraduate majors contain lower-division introductory course work often available at other institutions. Students wishing to be more competitive in the applicant pool should consider completing the suggested courses listed for their major before transferring. Completion of the following courses is not a prerequisite for transfer admission to USC (with the exceptions of the Marshall School of Business and the Dental Hygiene program). Many degree programs also require supplemental application materials and may have separate deadlines. When applicable, this information is listed in the tables below. NOTE: Schools that require a third-semester foreign language are indicated with #.
